Key findings by J.L.LaSalle research:

- Consumptions crisis led large-distribution players to a general re-thinking of their new openings plans; just a few retailers continue to target strong expansion;
- Rental leases decreased in 2009 and they should remain stable in the short term;
- Yields have grown till 2009 and they should remain stable in the short term.

- ✓ Our view is in line with J.L. LaSalle research
- ✓ A slowing retail property market, with a less aggressive competition, provides us with the opportunity of confirming our investment pipeline, which stems from a thorough preliminary analysis.

2012

2013

Caution

- ✓ Focus on committed pipeline
- ✓ Re-qualify existing portfolio

Stable LFL rental revenues

Fair Value of IGD Italian portfolio is expected to slightly decrease in 2010 and to be flat in 2011

Moderate optimism

- ✓ New investment opportunities

Moderate growth in rental revenues

Fair Value is expected to grow both in 2012 and in 2013 at a slow pace

TOP PRIORITY: EXECUTION OF **COMMITTED PIPELINE**

NEW INVESTMENTS

Shopping centres in our pipeline are designed to be **functional** and take in consideration **local consumptions patterns**

Investments have been selected analysing **catchment areas, local positioning and yield sustainability** over time

In line with new trends, we will **explore opportunities** of investing in **high-profile retail buildings located in historical centres** in main Italian cities, as well as in **medium-sized areas**.

EXISTING PORTFOLIO

Preserve **high quality of assets**

Extensions, re-stylings, overall improvements of centres

Investments for **facilitating access** and reducing traffic to our shopping centres, e.g. new parking and roundabouts

Refurbishments follow a **rolling plan** in order to **minimise vacancy**; typically restorations take place **when contracts are about to expire in order to improve tenant mix**.

Eco-sustainability will lead us to gain energy efficiency, e.g. through **photovoltaic panels**

(*) Sinaia in Romania has not been included

SALE OF TREASURY SHARES*

DISPOSAL OF A 20% STAKE IN PORTA MEDICEA

**IN ROMANIA, DISPOSAL OF 4 'VALUE' SHOPPING MALLS
AND OF 1 OFFICE BUILDING**

(*) Not before 2011: sale of 10,976,592 own shares at a price in line with NAV

New trends in a changing scenario

IN THE PAST...

PROACTIVE SELECTION OF TENANTS

Tenants' presence led by expansion plans of large retail brands

ANCHOR

Food as the sole anchor, on large areas

START-UP PHASE

3 – 5 years from opening

...WHILE CURRENTLY

IGD careful tenant selection

Food areas reduced as refurbishment takes place

Medium-large areas playing an anchor role (bricolage, fitness, electronics)

New international brands (H&M, Decathlon...)

IGD's support needed even beyond the typical 3 – 5 years

Occupancy rates and leases expirations

Occupancy expected stable throughout 2013

40% of total contracts to be renewed by 2013

Merchandising mix is critical

NEW TRENDS

A more limited weight for apparel

New malls with differentiated features, targeting specific kind of customers

Offer will be declined through 'worlds' – House, Fitness, Food..

...AVOID REPEATING THE SAME MERCHANDISING MIX EVERYWHERE...

...IN PARTICULAR WHEN FOCUSING ON CENTRES WITH SMALLER GLA, IN MAIN ITALIAN CITIES

Romania still enhancing consolidated EBITDA margin

STRONG RESILIENCE OF REVENUES AND MARGINS

In 2009 we limited the impact of an 8% drop in GDP thanks to the strong position of our shopping centres (downtown locations).

We also benefited from an anticipated execution of commercial strategy.

In light of the new macro-economic scenario:

- We expect to benefit from less fierce competition, as large retailers are postponing or cancelling their developments
- We will continue to execute a commercial strategy aimed to improve the quality profile of our tenants
- Rents expected to move in line with the Euro-zone inflation
- EBITDA margin is expected to stay well above the one from the Italian Portfolio

HP: sale of 5 non-core assets

REVENUES

Stable over the 2009-2013 period

EBITDA

CAGR (2009-2013) = +1.6%

EBITDA MARGIN

From 75.7% in 2009 to 81.5% in 2013

Fast growth in headcounts driven by the quick property portfolio expansion

A YOUNG AND HIGH-PROFILE STAFF

Avg. age of headcounts: 37 years
Graduated: 73%

2010-2013 PERIOD

+ 12 STAFF UNITS (of which 6 at headquarters)
-10 staff units in Romania, linked to disposals
→ LIMITED STAFF GROWTH

We feel we are adequately staffed in order to manage future growth

Visible benefits in terms of operating margins over time

Finance strategy

PEAK GEARING (D/E) = 1.5 x

Gearing will likely peak in 2011

1.5 x was already in the previous plan's target set

Never exceeded in the past

Well below the breach level of any covenants

KEEP LTV < 65%

Presently 59% (31 Oct 09) with a market value of 1,719.1 €mn

KEEP CAPITAL STRUCTURE BALANCED

Presently LT debt weight is 86%

LT debt duration = 12 y

MAINTAIN PRESENT LEVEL OF HEDGING

Presently 60% of LT debt is hedged

At the present level of indebtedness a 100bp change in interest rate translates into a xy change in financial charges

MAINTAIN SHORT-TERM DEBT FLEXIBILITY

As at 31 Oct. 2009

Short-term lines available: 327.5 €mn

Out of which, unused borrowing capacity: 178.8 €mn

DIVIDEND DISTRIBUTION

SIQ status: at least 85% of net income available for distribution generated by rental activities

Present simulations indicate that dividend per share can double (2009-2013)

Further growth options

Over the coming years we are committed to execute a challenging growth plan, improving IGD margin profile

ON TOP OF THIS:

FURTHER GROWTH OPTIONS AVAILABLE

ATTRACTION OF RETAIL PROPERTY PORTFOLIOS

**LEVERAGING ON THE FISCAL EFFICIENCY OF
OUR 'SIIQ STATUS'**

**ASSETS FROM THE COOP WORLD ARE THE
MOST OBVIOUS CANDIDATES...
BUT NOT THE SOLE ONES**

AGGREGATION CRITERIA

- A 6.3-6.5% yield, in line with IGD's one
- D/E < to the IGD's gearing ratio
- Contribution value: at IGD's NAV

Final remarks

STRONG STRATEGIC FOCUS

- Retail property industry
- Italian market

ATTRACTIVE BP TARGETS

- Visible and sizeable headline growth
- Continuous EBITDA margin improvement
- Room for rewarding dividend distribution
