Please refer to the section "Board of Directors" of this report for further information.

3.3 COMPLIANCE (pursuant to Art. 123-bis, par. 2, lett. a), T.U.F)

Since its IPO, on 11 February 2005, the Company has adopted the Corporate Governance Code and has structured its corporate governance, the rules and standards of conduct, in a way that ensures efficient and transparent corporate bodies and control systems in line with the code guidelines.

The code is published on Borsa Italiana's website (<http://www.borsaitaliana.it/borsaitaliana/regolamenti/corporategovernance/corporategovernance.htm>).

The structure of the company's governance is described in this section of the Directors' Report.

CORPORATE GOVERNANCE STRUCTURE

Insofar as it is an Italian company with shares listed on the stock exchange which adheres to the code referred to above, the governance structure is founded on a traditional model comprised of: Shareholders' Meetings, the Board of Directors, Board of Statutory Auditors and External Auditors.

The Shareholders' Meeting is the forum used by the shareholders to express their wishes. The resolutions are made in accordance with the law and the bylaws while the meetings are governed by specific regulations adopted by the Company in order to ensure that the meetings are carried out in an orderly and efficient manner.

The issuer's current corporate by-laws comply with the new directives contained in Legislative Decree 27/2010 relating to shareholders' rights which facilitate shareholder participation and the exercise of voting rights during the shareholder meetings.

The Board of Directors defines the strategy for the Company and its subsidiaries and oversees the business operations. In accordance with the bylaws, the Board of Directors may take all measures it deems fit for implementing and achieving the corporate purpose, except for those that the law or the bylaws reserve for the shareholders.

The Board of Statutory Auditors oversees compliance with the law and the bylaws and ensures that the standards of correct administration are observed and, in particular, that the organizational, administrative and accounting structures are adequate, that they function correctly, that the corporate governance rules provided for in the Code are complied with and that the disclosures made by the Company to its subsidiaries comply with Art. 114, paragraph 2, of the TUF (public disclosures).

The Board of Statutory Auditors is not responsible for financial audit which is, in accordance with the law, assigned to a financial audit company appointed by the shareholders. In this regard the Board of Statutory Auditors may be called upon to provide shareholders with a motivated opinion as to the choice of the external audit firm to be hired for financial audit.

The company's subsidiaries include the Romanian company WinMagazine SA which, however, has no impact on IGD's current corporate governance structure

3.4 BOARD OF DIRECTORS

3.4.1 APPOINTMENT AND REPLACEMENT (pursuant to Art. 123-bis, para. 1, lett. I), TUF)

The Company is administered by a Board of Directors composed, as per the bylaws, of seven to nineteen members.

The shareholders' meeting of 19 April 2012 decided that there will be 15 members in the Board of Directors, to serve until the date of the shareholders' meeting called to approve the financial statements for the year ending 31 December 2014.

The directors pursue the corporate purpose, acting independently and resolving with sound judgement, seeking out all available information, in order to achieve the priority goal of creating medium/long term value for the shareholders.

Pursuant to Articles 16.2 and 16.3 of the bylaws, the directors are elected on the basis of preference lists which comply with the current laws relating to gender equality. In accordance with Art. 16.3 of the bylaws, lists may be submitted by shareholders who, alone or together with others, hold the interest determined in accordance with CONSOB regulations (for 2013 equal to 2.5% of the Company's share capital). The lists must be filed at the head office at least twenty-five days in advance of the first-call date of the meeting which will be mentioned in the notice of call. Pursuant to Art. 147-ter, paragraph 1-bis, TUF, Shareholders must submit the certification attesting to possession of the shares needed to file voting lists, determined on the basis of the shareholders of record on the day the lists were filed with the company, issued by an intermediary authorized in accordance with the law at least 21 days prior to the Annual General Meeting is to be held.

The candidates must be numbered sequentially in the lists up to the number of seats to be filled. In accordance with the latest version of Art. 147 ter, fourth paragraph, of the TUF, Art. 16.3, last passage, of the bylaws states that every list must include at least two clearly indicated candidates who qualify as independent in accordance with the law.

The lists which include three or more candidates must include candidates of both genders, as indicated in the notice of call for the Annual General Meeting, in order to ensure that the composition of the Board of Directors complies with current laws relating to gender equality.

In compliance with the bylaws, the lists must be filed along with the candidates' irrevocable acceptance of office (should they be elected), curriculum vitae, and statements confirming that there are no reasons for ineligibility and/or disqualification and that they meet the requirements set by law.

Art. 16.4 of the bylaws, reflecting the provisions of Art. 147-ter, paragraph 3 of the TUF, prohibits any shareholder from submitting or participating in the submission of more than one list. In keeping with the above, Art. 16.7 of the bylaws states that if more than one list is submitted, at least one director must be appointed from the minority list. Thus, if the candidates ranked with the highest quotients come from a single list, the candidate from the minority lists who has earned the highest quotient will be elected in place of the candidate at the bottom of the ranking.

Art. 16.8 of the bylaws, on the subject of filling vacancies on the Board of Directors, combines the co-optation system with the requirement that minority interests be represented and that at least two directors qualify as independent pursuant to Art. 147-ter, par. 3 of the TUF, as well as in accordance with the laws governing gender equality.

The shareholders' agreement between Coop Adriatica and Unicoop Tirreno, deemed relevant as per Art. 122 of the TUF, was recently renewed on 12 June 2012 and will expire on 30 June 2013.

Pursuant to Art. 2 of the agreement above the Board of Directors of IGD is to be comprised of 15 members for the duration of the agreement. In the event the Board of Directors is renewed, the parties agreed to submit a list of fifteen candidates, consisting of 7 directors designated by the Coop Adriatica (3 of which are independent pursuant to Borsa Italiana's Corporate Governance Code and at least one of which possesses the requisites pursuant to Art. 148, para. 3 of Legislative Decree n. 58/1998), 5 directors designated by Unicoop Tirreno (2 of which are independent pursuant to Borsa Italiana's Corporate Governance Code and at least one of which possesses the requisites pursuant to Art. 148, para. 3 of Legislative Decree n. 58/1998) and 3 directors designated jointly by Coop Adriatica and Unicoop Tirreno (independent pursuant to Borsa Italiana's Corporate Governance Code). Furthermore, pursuant to both Art. 2 above and Art. 16.7 of the bylaws, if more than one list is submitted, at least one director must be appointed from the minority list.

With regard to the laws relating to gender equality in the administrative and control bodies of listed companies introduced in Law n. 120 of 12 July 2011, as amended, and subsequently included in the Regulations for Issuers, on 28 February 2013 the Board of Directors resolved to ask the shareholders, meeting in extraordinary session on 18 April 2013, in first call, and 19 April 2013, in second call, to approve other amendments to the bylaws in order to introduce a mechanism to ensure compliance with the current laws relating to gender equality in the election of Board members (for more information, please see paragraph 4.2).

Succession plan

As of the date on which this report was approved, the Board of Directors has not adopted a specific succession plan for the executive directors as it was deemed unnecessary in light of the shareholders and the current powers granted to the Board.

The current composition of the Board of Directors already complies with the current laws relating to gender equality, as the Company had already amended its bylaws to comply with Law 120/2011 during the Annual General Meeting held on 19 April 2012.

Toward that end, when the majority shareholders presented their lists for the renewal of the Board of Directors, the number of candidates of the least represented gender reflected the voluntary and early compliance with the laws introduced relating to gender equality which took effect on 12 August 2012.

It should also be pointed out that the provisions relating to the composition of the administrative and control bodies, contained in the above mentioned Law 120/2011, include a specific temporary norm calling for the gradual application of the law and that for the first mandate at least one fifth of the directors and statutory auditors should be of the least represented gender. During the Annual General Meeting held on 19 April 2012 the shareholders granted the Board of Directors the power, pursuant to Art. 2365, paragraph two, of the Italian Civil Code to make the additional changes to the bylaws relating to the criteria used to guarantee equal gender opportunities during the voting process, to substitute members who leave office before the end of their term, as well as the additional bylaw amendments needed to comply with the laws relating to gender equality.

As discussed in paragraph 4.1 above, on 28 February 2013 the Board of Directors resolved to ask the shareholders, meeting in extraordinary session on 18 April 2013, in first call, and 19 April 2013, in second call, to approve other amendments to the bylaws in order to introduce a mechanism to ensure compliance with the current laws relating to gender equality in the election of Board members.

In compliance with the Corporate Governance Code, the directors take office only when they believe that they will be able to dedicate the time needed to carry out their duties diligently, including in light of their roles in any Board committees, as well as the workload connected to their professional activities, the number of and time dedicated to other offices held as director or statutory auditor in other companies as per the limits on multiple assignments described below, ensuring that this condition remains throughout their term of office.

The Directors, aware of the responsibilities inherent in the office held, must be constantly updated on the newest legislative and regulatory developments affecting the Company and its business.

The directors must comply with the Ethical Code, the Code of Internal Dealing and any other provisions with which the Company regulates the directors' conduct; the directors, like the statutory auditors, must treat any documents and information to which they might have access in the course of their duties with the maximum confidentiality.

Maximum number of appointments allowed in other companies

In order to regulate the maximum permitted number of appointments in another company that a director may hold, the Company drafted specific regulations referred to as the "Limits to the maximum number of appointments allowed in other companies" which were approved by the Board of Directors on 13 December 2010, in accordance with the proposal received from the Nominations Committee. Based on the regulations, the term "maximum number" does not refer solely to the number of offices held, but also attributes a weight to each type of appointment in relation to the nature and size of the company, as well as the position held by IGD's directors in other companies, in light of the fact that more time is dedicated to certain positions than to others. In light of this consideration, IGD's Board of Directors held that the weight to be attributed to the office of Chairman, Executive Director be different, for example, than that of a non-executive director or member of the Board of Statutory Auditors. Lastly, the weight attributed each office was also different based on the type and size of the company and two sub-categories were established; Group A and Group B. Group A includes other companies listed on regulated markets, financial institutions, banks, insurance companies or other large companies. All the companies which are not part of Group A are automatically considered part of Group B. In light of these considerations, the Board listed the overall weight of the offices held in other companies which can be considered compatible with acting effectively as a director in IGD.

The general criteria described above were approved by the Nominations Committee and then by IGD's Board of Directors in light of the fact that in order to act as a director the appointees must be able to devote the time necessary to diligently and effectively fulfil his/her obligations. On the basis, therefore, of the regulations governing "Limits to the maximum number of appointments allowed in other companies" the current board was found to be fully compliant.¹

Pursuant to the Corporate Governance Code the principle offices held by directors in companies other than those of the IGD Group can be found in Table 4 "Offices held by the directors at 31 December 2012", attached.

Over the years the Company, in line with the practice adopted since 2009, has promoted group meetings with the Directors and the Statutory Auditors in order to further explore topics linked to the global market environment in which the Company operates and analyze the unique characteristics of the Company's core business and any strategic opportunities.

3.4.3 ROLE AND FUNCTIONS OF THE BOARD OF DIRECTORS (pursuant to Art. 123-bis, par 2, lett. d) TUF)

The Company is administered by a Board of Directors which meets on a regular basis and which is organized in such a way as to guarantee that its duties are carried out efficiently.

The Board of Directors primary responsibility is to determine and pursue the strategic objectives of the Company and the entire Group.

In order to ensure maximum attendance at the Board meetings, they are held on the dates indicated in a financial calendar which has been disclosed to the market in accordance with *Borsa Italiana's* instructions. Additional meetings may be called if deemed necessary in order to address certain issues; the Board, at any rate, takes the steps necessary to effectively fulfil its duties. The Company published the following financial calendar which calls for 4 meetings to be held in 2013:

- 28 February 2013: Board of Directors' meeting to examine the separate and consolidated financial statements at 31 December 2012;

¹ Corporate Governance Code: Art. 1.C.3.

- 9 May 2013: Board of Directors' meeting to examine the Interim Management Statement at 31 March 2013;
- 7 August 2013: Board of Directors' meeting to examine the Half-year Financial Report at 30 June 2013;
- 7 November 2013: Board of Directors' meeting to examine the Interim Management Statement at 30 September 2013.

If the company deems it opportune it may convene, in accordance with the bylaws, other board of director meetings in 2013.

Pursuant to Art. 17.3 of the bylaws, the chairman calls and presides over meetings of the Board of Directors; conducts, coordinates and moderates the discussion and related activities; and announces the results of votes. He must ensure that the Board of Directors constantly pursues its primary responsibility, namely achieving the strategic goals of the Company and the entire Group.

Without prejudice to the call prerogatives guaranteed by law, meetings of the Board of Directors are called by the chairman, or the chairman's deputy, whenever this person sees fit or at the request of a majority of the directors. Art. 18 of the bylaws also provides for Board of Directors' meetings to be called by the Board of Statutory Auditors. Meetings are normally called by telegram, fax, or other means as long as this ensures proof of receipt at the domicile of each member of the Board of Directors at least five days in advance of the meeting. In urgent cases, meetings may be called two days in advance. The statutory auditors are informed of the meeting according to the same terms described above. Typically the meetings are called via e-mail.

The power to call the Board of Directors' meetings granted to the Board of Statutory Auditors or by any member thereof complies with Art. 151, second paragraph of TUF.

The Board of Directors meets at the place specified in the notice of meeting, which may be the registered office or anywhere else in Italy.

The Chairman of the Board of Directors works to ensure that the directors and statutory auditors receive the documentation relating to the items on the Agenda in a timely manner and prior to the date on which the meeting is to be held².

The Issuer, in order to promote active participation at the Board meetings, provides the Directors and the Statutory Auditors with the documentation relating to the items on the Agenda at least two days before the meeting is to be held.

Board meetings are presided over by the chairman or, if the chairman is unavailable, by the vice chairman (if appointed) or, if the vice chairman is unavailable, by the most senior director in terms of age.

For each meeting the Board of Directors, at the chairman's proposal, elects a secretary who may or may not be a member and who will sign the minutes of the meeting.

The bylaws require the presence of at least one member of the Board of Statutory Auditors at all sessions of the Board of Directors, to ensure that the auditors are informed of the Company's activities and of the transactions having a significant impact on profitability, assets, liabilities, and financial position carried out by the Company or its subsidiaries, in particular those transactions in which they have an interest on their own or third parties' account; that are influenced by the party in charge of management and coordination; or that have been the subject of resolutions, debate or announcement during the course of the session. If no statutory auditor is present at a meeting of the Board of Directors, or if the procedures adopted in accordance with the preceding section do not guarantee that the auditors are informed on at least a quarterly basis, then according to the bylaws the chairman and/or the chief executive officer must report in writing on his or her activities to the chairman of the Board of Statutory Auditors within three months. This report must be mentioned in the minutes of the first subsequent meeting of the Board of Statutory Auditors.

² Corporate Governance Code: Art 1.C.5.

Typically the Issuer's managers attend the Board of Directors' meetings in order to provide additional information regarding the items on the Agenda. The Chairman of the Board of Directors, including if requested by one or more directors, may request that the Chief Executive Officer invite executives of the Company or Group companies to attend the Board meetings to provide in depth information about the items on the Agenda. During the year ended 31 December 2012, the Board of Directors held 8 meetings, on 8 March, 19 April, 10 May, 17 May, 28 August, 2 October, 8 November, 27 November, duly attended by the directors and by a member of the Board of Statutory Auditors. The absentee rate was quite low and all absences were excused. Each meeting lasted an average of 3 hours.

During the meeting held on 8 November 2012, the Board of Directors, with a view to adopting a system more in line with best practices which allow for the management of control functions to be separated from operations, called upon the Chairman, Gilberto Coffari, to act as the director in charge of Control and Risk Management who, following this assignment, is considered the executive director. At the same time the relative powers originally granted to the Chief Executive Officer were revoked.

During the meeting held on 19 April 2012, the Board of Directors appointed Sergio Costalli Vice Chariman, granting him the powers assigned to the Chairman to be exercised if the latter is absent or unavailable.

Each director may request that the deputized parties provide the Board with information regarding the Company's management.

For the purposes of fostering organized reporting, the Company has adopted a set of specific Guidelines which define the rules to be followed for complying with the reporting obligations.

The main purpose of these guidelines is to provide corporate governance tools that are concrete examples of the recommendations found in the Corporate Governance Code. The guidelines, in particular, ensure the transparency of the Company's management, make it possible for each director to be involved in the management in a more knowledgeable way thanks to the efficient flow of information between the deputized parties and the Board as per the Corporate Governance Code which stress the centrality of the Board's role while also seeking to reinforce the internal control functions.

The guidelines also contain information about the supervisory activities of the Board of Statutory Auditors pursuant to Art. 149 (TUF).

The Guidelines are published in full on the Company's website <http://www.gruppoigd.it/Governance>

3.4.5 OTHER EXECUTIVE DIRECTORS¹⁵

The Board of Directors appointed the Chief Executive Officer Claudio Albertini to act as Executive Director. Following the appointment of the Chairman of the Board of Directors as the Director in Charge of Control and Risk Management and the powers granted¹⁶ during the Board meeting held on 8 November 2012, the former is considered Executive Director.

3.4.6 INDEPENDENT DIRECTORS

The Company's Board of Directors evaluated compliance with the requirements for independent, non-executive directors provided for in the Corporate Governance Code and TUF upon and subsequent to appointment of the directors. The outcome of this evaluation was disclosed to the market.

After having examined the information provided by the directors, in the meeting held on 28 February 2013 the Board of Directors confirmed that the independent directors appointed Giorgio Boldreghini, Fabio Carpanelli, Massimo Franzoni, Elisabetta Gualandri, Tamara Magalotti, Andrea Parenti, Riccardo Sabadini, Livia Salvini still qualified as such¹⁷. In accordance with the Corporate Governance Code, on 13 February 2013 the Statutory Auditors verified that the criteria and procedures for assessing the independence of its directors were correctly applied by the Board¹⁸. As the current Board of Directors is comprised of 15 members, the independent directors represent 53% of the total number of directors and 61.5% of the total number of non-executive directors. Please note that the Board of Directors also verified that all the directors who qualify as independent pursuant to the Corporate Governance Code also meet the requirements for independent applied to members of the Board of Statutory Auditors pursuant to TUF.

The Independent Directors met once in 2012 (27 November 2012) as convened by the Lead Independent Director.

3.4.7 LEAD INDEPENDENT DIRECTOR

In February 2007, in order to further enhance the role of independent directors, the Board decided to introduce the title of **Lead Independent Director**. More in detail, the Board of Directors deemed it opportune to appoint a lead independent director also because, at that time, the Chairman of the Board of Directors was also the Chairman of the Board of Directors of the Company's majority shareholder.

Following the recent renewal of the Board of Directors, during the Board meeting held on 19 April 2012 the Company deemed that the appointment of a Lead Independent Director could help guarantee the above and enhance the role of the independent directors, in line with the Company's practices, and appointed independent director Riccardo Sabadini to act as Lead Independent Director.

¹⁵ Corporate Governance Code: Art. 2.C.1.

The Lead Independent Director, acting individually or at the request of other directors, may also call meetings of independent directors only ("independent directors' executive sessions") to discuss topics deemed of interest in relation to the functioning of the Board of Directors or the Company's management.

In 2012 the Lead Independent Director called a meeting of all employees on 27 November 2012.

3.5 TREATMENT OF CORPORATE INFORMATION

Procedure for managing and disclosing price sensitive information

In accordance with Code recommendations, particularly with regard to price sensitive information pursuant to Art. 114, para. 1 TUF, in December 2006, the Company adopted an internal procedure for the secure, confidential management and disclosure of price sensitive information and documents¹⁹.

The procedure is to be followed by all members of corporate bodies, as well as managers and employees of the Company and its subsidiaries who have access to price sensitive information. They must, therefore, keep confidential the documents and information obtained during the course of their duties and follow the procedure the Company has adopted for the internal management and disclosure to third parties of such data.

The procedure also aims to prevent such information from being disclosed selectively (i.e. divulged ahead of time to certain parties, such as shareholders, reporters or analysts), or in an untimely, incomplete or inadequate manner.

Registry of Insiders

Pursuant to Art. 115-bis TUF and in order to foster greater control in the internal management and disclosure of price sensitive information, in June 2006 the Company established a registry of the persons who have access to price sensitive information, the "Registry of Insiders".

The purpose of the above mentioned regulation is twofold; to develop greater awareness as to the importance of price sensitive information and to facilitate Consob's supervisory activities, as well as the judicial authorities' investigations in cases involving potential market abuse.

All the directors, statutory auditors, managers and employees who have access, on a continuous basis to price sensitive information, are listed in the registry.

Internal dealing

In accordance with Art. 114, paragraph 7 of TUF and with the implementation provisions found in Arts. 152-sexies et seq. of the "Regulations for Issuers", effective as of January 2007 the Board of Directors adopted a procedure governing mandatory notification and conduct on the subject of transactions carried out by relevant persons and parties closely related to such persons on the Company's shares or on related financial instruments.

The code of conduct is available at <http://www.gruppoigd.it/Governance>.

3.6 BOARD COMMITTEES (pursuant to Art. 123-bis, par. 2, lett. d), TUF)

In 2008 the Board of Directors, in compliance with Code recommendations, formed the Chairman's Committee, the Control and Risk Committee (formerly the Internal Control Committee) and the Committee for Related Party Transactions.

As the Company is subject to the management and coordination of Coop Adriatica s.c.a r.l., who holds 42.773% of the Company's share capital, pursuant to Art. 2497 of the Italian Civil Code, it is subject to Art. 37, paragraph 1 (d) of the Market Regulations, based on which the committees formed pursuant to the Corporate Governance Code must comprise only independent directors as defined in TUF and the Corporate Governance Code.

In 2012, the Board of Directors resolved to combine the Compensation and the Nominations Committees into a single "Nominations and Compensation Committee" in accordance with the recommendations found in the comments on Article 4 of the Code and having met the organizational requirements referred to. The members of the previously mentioned committees were recently elected when the Board of Directors was renewed in April 2012 (with regard to the Committee for Related Party Transactions, please refer to paragraph 12 "Directors' interests and related party transactions").

3.7 NOMINATIONS AND COMPENSATION COMMITTEE

During the meeting held on 19 April 2012 the Board of Directors resolved to combine the Compensation and the Nominations Committees into a single "Nominations and Compensation Committee".

The two committees were combined for internal organizational purposes, as the members of the former Compensation Committee possess the same requirements relative to independence, professionalism and experience as the members of the Nominations Committee.

Composition and role of the Nominations and Compensation Committee (pursuant to Art. 123-bis, par 2, lett. d) TUF)

3.10 INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Internal Control System consists in the set of rules, procedures and organizational structures designed to ensure that the business is run correctly and in line with the objectives agreed upon, through the proper identification, assessment and control of the primary risks facing the company with a view to creating medium/long term value for shareholders.

This system is part of the Company's overall organizational and corporate governance structure and reflects the reference models, as well as national and international best practices.

This internal control system helps guarantee the safeguarding of the company's assets, the efficiency and efficacy of the company's operations, the reliability of financial information, and compliance with laws and regulations, as well as the bylaws and internal procedures.

During the meeting held on 8 November the Board approved new Rules for Corporate Governance in which the roles and responsibilities relating to control and risk management are outlined. These rules reflect the corporate governance documents which the company had previously adopted and which were included in prior versions of the Report on Corporate Governance, namely "IGD's Internal Control System".

The content of the above mentioned "Rules for Corporate Governance" is in line with the Corporate Governance Code.

The internal control and risk management system involves, to the extent of their expertise:

- i) the Board of Directors;
- ii) the Director charged with creating and managing an effective internal control and risk management system;
- iii) the Control and Risk Committee, as the voice of the Board of Directors, formed in accordance with the Corporate Governance Code which must support, after having received adequate information, the evaluations and decisions made by the Board of Directors relating to the internal control and risk management system, as well as the decisions relating to the approval of the periodic financial reports;
- iv) the Head of Internal Audit, charged with verifying that the internal control and risk management system is functional and adequate;
- v) the Financial Reporting Officer who, by law, is charged with establishing adequate administrative and accounting procedures for the preparation of financial documents and reports;
- vi) other roles and company divisions assigned specific duties relating to internal control and risk management based on the size, complexity and profile of the business risks (including, for example, the Supervisory Board created pursuant to Legislative Decree 231/2001);
- vii) the Board of Statutory Auditors which monitors the efficacy of the internal control and risk management system.

The Board of Directors ensures that the assessments and decisions made relating to the internal control system, the approval of the annual and half-year reports, as well as the relations between the Company and the external auditors are supported by an adequate exchange of information.

The Board of Directors, as part of its strategic supervision, defines the guidelines for the control systems in line with the Company's business risk previously determined by the Board²¹.

The Board, by law, must also periodically verify the adequacy of the control systems. Unforeseen events, however, may require further investigation in order to verify the efficacy of the controls in relation to particular situations²² and the Board, therefore, is also responsible for the adoption of an adequate system in light of the business's characteristics.

Toward this end an efficient organization of the workflow is key to ensuring that any questions relating to internal control, in general, and risk management, in particular, are discussed with the Board after having been adequately briefed by the Control and Risk Committee.

In order to most effectively serve its control and risk management needs, as well as its complexity, its status as a listed company and business dynamics, IGD developed an integrated model for risk management which is in line with renowned international Enterprise Risk Management (ERM) standards. This "ERM" model helps top management to identify the primary risks to which the Company is exposed, how to manage them, as well as to

²¹ Comment - Art. 7 Corporate Governance Code

²² Comment - Art. 7 Corporate Governance Code

define the risk management system. The main objective is to implement a systematic and pro-active risk management system capable of understanding the potential negative impact of risks in advance, take the necessary steps to control them, as well as continuously monitor the different exposures.

Thanks to the Enterprise Risk Management project completed by IGD, a systematic management system was implemented which makes it possible for the Group and top management to identify, measure and assess strategic, operational, financial and compliance risks.

The risk management system adopted is constantly updated and developed by management in order to ensure that it is adequate in light of changes in the organizational structure or business. The methods used as part of the Group's ERM system call for the following periodic activities: (i) verification and/or update of the risk map, in light of the Company's strategies and the organizational and business models; (ii) confirmation as to the efficacy of the risk assessment model used and its appropriateness given the Company's organizational structure, business and strategies; (iii) analysis of the risks identified, the organization of the risk management personnel and the risk control measures used; (iv) assessment of the risks to which Group companies are exposed; (v) identification of the "risk indicators", which make it possible to identify and assess the impact that the risks under examination could have on the company's performance; (vi) assessment of the level of risk coverage based on the control mechanisms used; (vii) prioritization of the risks and the steps to be taken; (viii) risk tolerance analysis in accordance with the instructions received from the Group's top management; (ix) definition of the management and control strategies and assignment of responsibilities; (x) monitoring implementation of the system and related activities over time.

In 2012 the Group continued to implement the ERM system by adopting methods and operative tools which made it easier assess risk, above all financial, as well as to monitor the system on the basis of a risk assessment plan. More in detail, the project called for the creation of a risk analysis template (Tableau De Bord) based on Key Risk Indicators which are used to better assess the possible impact of the risks identified during the Risk Assessment performed in 2010 and updated in 2012.

More in detail, the risk analysis template provides for both a quantitative analysis of risk scenarios in order to understand the impact of the different risk scenarios on the Company's assets and the identification of Key Risk Indicators, including in relation to the adoption and implementation of control systems and any improvement that might be needed, which make it possible to predict what could happen if the level of risk should change, calculate the economic and financial impact, as well as monitor the performance.

A specific working group was formed in order to carry out the activities listed above.

In 2012 IGD also monitored "key risks" (more in detail: credit risk – consortiums of IGD shopping centers and the risk that the global market and competitive could change for the subsidiary WinMarkt, as well as credit risk), in order to understand how to better contain the risk (as was done as part of the risk assessment in 2010 and self -assessment in 2011), and update them in light of the new activities undertaken by the Company to control the risks identified and find any areas which could be improved or changed.

The internal controls implemented in relation to the financial reporting process play an important part in the general process used to identify and assess areas of the Group's business risk and to develop an internal control system that best controls these business risks.

The ERM model should not, therefore, be considered separately from the internal controls implemented in relation to the financial reporting process, insofar as both are part of IGD's overall internal control systems.

In this regard, it is noted that the preparation of the yearly and interim financial reports and, in particular, to the identification of the principle risks facing IGD and the Group, are strictly linked to the Enterprise Risk Management systems used by the Company and the Group to identify, assess and mitigate business risk.

Main features of the existing internal control and risk management systems in relation to the financial reporting process

With regard to the internal controls implemented in relation to the financial reporting process, in prior years IGD has undertaken to comply with Law 262/05 by updating the accounting and administrative control models and has also executed the controls necessary to support the Financial Reporting Officer's certification process.

The above mentioned accounting and administrative control system represents the set of rules, procedures and internal tools used by the Company to ensure the reliability, accuracy, and timeliness of financial reporting.

The methods used by the Financial Reporting Officer in the development of the accounting and administrative control system are those described in specific guidelines drafted in this regard which are in line with the recommendations for the Financial Reporting Officer found in the guidelines issued by ANDAF.

The internal control system implemented in relation to IGD's financial reporting process involves the following activities:

- Identification of the perimeter of the relevant administrative-accounting processes;
- Assessment of the risk management and administrative-accounting control processes;
- Identification and implementation of any needed improvements;
- Definition of the administrative-accounting control system;
- Verification as to the functioning of the controls.

As part of the yearly and half-yearly financial reporting process, in order to understand the principal risks to which IGD and the Group are exposed, the Financial Reporting Officer works with the parties involved in the Company's and the Group's Enterprise Risk Management system (the working group initially dedicated to the launch of the ERM system) in order to identify and assess business risks.

The activities listed above are described in greater detail below.

Identification of the perimeter of the relevant administrative-accounting processes

This activity involves defining the perimeter of the Group and Group company processes to be controlled. Quantitative and qualitative parameters are used to assess the risks and the administrative-accounting controls based on the impact that the different items have on the financial statements.

This perimeter is constantly reviewed each year by the Company to determine if any changes are needed, including with regard to the companies doing business in Romania. Another review of the perimeter was made in order to update the administrative-accounting controls in light of changes in the Group's organizational structure and business.

This scoping phase calls for a multi-year plan based on which the processes, risks and administrative-accounting controls are reviewed.

Assessment of the processes, risks and administrative-accounting controls

This activity involves assessing the financial reporting control system used with regard to each item, process and transaction in order to effectively mitigate the risks linked to the administrative-accounting process.

The approach used takes into account the margin for error, as well as the risk that fraudulent acts may occur, by providing for controls and verifications of this type of risk which are coordinated with the controls implemented as part of the entire internal control system.

The approach used also takes into account both manual and IT system controls which include automatic controls incorporated into applications, as well as the general IT controls that regulate system access, systems development and the adequacy of the IT structures.

Based on the multiyear plan referred to above, the assessment of the processes pertaining to Group companies was prioritized. More in detail, the analyses of the processes used to identify and control risks continued as part of the risk assessment and the scoping reviews conducted pursuant to Law 262/05. The Financial Reporting Officer constantly monitored the adequacy of the controls implemented and, if necessary, took corrective action.

Definition of the administrative-accounting system

Based on the results of the assessment of the processes, risks and controls, the Company then defines or updates the administrative-accounting procedures and guarantees their adequacy with respect to the internal control system by monitoring the different phases of the process used to update or define each procedure. The administrative-accounting procedures are defined and implemented on the basis of a plan; the Company also standardized the administrative-accounting procedures used by the Romanian companies.

Verification of the administrative-accounting procedures

The administrative-accounting procedures are continuously monitored; toward this end specific checks are programmed in order to ensure that the administrative-accounting procedures and the relative controls have been correctly implemented. These controls are made of the entire perimeter of the companies active in Italy, with the support of Internal Audit, as well as in Romania.

During the year the Board monitored the adequacy, efficacy and functioning of the internal control system, based on the information provided by the Internal Control Committee, as well as the reports prepared by the Chief Executive Officer, the Financial Reporting Office and Internal Audit.

3.10.03 DECREE 231/2001 ORGANIZATIONAL MODEL

In 2006 the Board of Directors approved adoption of the Organizational Model, as subsequently amended, which further strengthened the internal control system. In 2012 the Company, as new crimes were added to those for which the Company could be found liable, mapped the core business activities at risk and, consequently, updated the Model and provided employees and management with training in this regard.

The Organizational Model seeks to ensure that the system complies with Decree 231/2001 based on which companies were made administratively responsible in criminal proceedings for certain types of crimes committed by top managers and subordinates and is based on the standards and procedures described below.

The Organizational Model includes the following:

- a. mapping of the activities at risk based on the information gathered regarding IGD's activities and organizational structure;
- b. the Ethical Code, which formulates the general principles (diligence, honesty and fairness) inspiring the conduct of business;
- c. internal control mechanisms monitoring areas at risk;

The Model is also available on the company's website <http://www.gruppoigd.it/Governance>.

3.10.04 EXTERNAL AUDITORS

The activities related to financial audit are carried out by a company selected by the shareholders from among those listed in Consob's specific roll.

On 16 September 2004 the shareholders granted the company Reconta Ernst&Young the assignment, which was subsequently renewed on 23 April 2007, for the financial audit of separate and consolidated annual and half-yearly financial statements for the period 2006-2012. The assignment was granted on the basis of a detailed analysis of the motivated opinion submitted by the Board of Statutory Auditors in accordance with current norms and regulations.

As the nine year assignment granted Reconta Ernst&Young S.p.A. is expiring, the granting of the assignment to a new financial audit company will be resolved upon by the shareholders during the next Annual General Meeting called on 18 and 19 April 2013, in first and second call, respectively.

3.11 DIRECTORS' INTERESTS AND TRANSACTIONS WITH RELATED PARTIES

With regard to the transactions with related parties, as of 1 January 2011 the Company applied the "Procedure for Related Party Transactions" approved on 11 November 2010 by the Board of Directors, subject to the favorable opinion of the Committee for Related Party Transactions, pursuant to Art. 2391-*bis* of the Italian Civil Code and Art. 4, paragraphs 1 and 3, of Consob's Regulations for Related Party Transactions. The Company's Board of Statutory Auditors also verified that the procedure approved by the Board of Directors complied with the Consob Regulations.

The purpose of the "Procedure for Related Party Transactions" is to define the rules governing the approval and execution of related party transactions entered into by the Company, directly or through its subsidiaries, in order to ensure the transparency, as well as the substantive and procedural fairness of the transaction.

The term "Related Party" is defined explicitly in the Regulations, as per IAS 24, with marginal adjustments in order to ensure that the perimeter of related parties and related transactions is correctly determined. In order to maintain consistency in the financial statements, the Company decided to apply the Procedure to the subsidiaries of the company which exercises a significant influence over IGD, pursuant to Art. 4, par. 2, of the Regulations.

Related party transactions are transactions in which there is a transfer of resources, services or obligations between one or more related parties, regardless of whether a price is charged.

The Regulations distinguish between:

Material related party transactions (including cumulatively): one in which at least one of the following Consob materiality ratios has a value of 5% or more:

- (i) transaction materiality ratio: this is the ratio between the amount of the transaction and the higher of the amount of equity IGD SIIQ's capitalization;
- (ii) assets materiality ratio: the ratio between the total assets of the entity involved in the transactions and IGD SIIQ's total assets;
- (iii) liabilities materiality ratio: the ratio between acquired entity's total liabilities and IGD SIIQ's total assets.

Less material related party transactions, which includes all the other transactions.

The Regulations establish the criteria to be used in approving the material and less material transactions:

- the Committee for Related Party Transactions and the body involved in the approval of the transaction must be provided with complete and adequate information in a timely manner prior to approval;
- the Committee for Related Party Transactions may, at the expense of the Company, avail itself of independent experts;
- a statement attesting to the fact that the transaction is in the best interest of the Company and that the terms and conditions are fair and substantively correct must be included in the minutes, when recorded.
- the Board of Directors and the Board of Statutory Auditors must be informed as to the status of the transactions at least on a quarterly basis.

Furthermore, pursuant to and in accordance with the Regulations, the Procedures for Related Party Transactions also includes a list of the transactions which are not governed by the Regulations (with the exception of certain disclosure requirements) and which include:

1. immaterial transactions (below the amount indicated in the Company's Procedure).
2. resolutions relating to remuneration of directors holding particular offices (Chairman, Chief Executive Officer, committee members) and under certain conditions (i.e. if the company's compensation policy calls for the involvement of the Compensation Committee).
3. compensation packages based on financial instruments approved by the shareholders pursuant to Art. 114-*bis* of TUF.
4. routine transactions concluded in accordance with market equivalent or standard conditions (i.e. service contracts).
5. transactions with or between subsidiaries and associate companies (when the transaction does not correspond to a material interest of other related parties, without prejudice to any periodic accounting information provided).

The Company formed the Committee for Related Party Transactions in accordance with Art. 2391-*bis* of the Italian Civil Code and Art. 4, paragraphs 1 and 3, of Consob's Regulations for Related Party Transactions.

The Committee for Related Party Transactions is comprised of three independent directors: Riccardo Saladini, also appointed Chairman, Giorgio Boldreghini and Andrea Parenti, appointed by the Board of Directors on 19 April 2012. The Committee's functions are governed by the Procedures for Related Party Transactions approved by the Board of Directors on 11 November 2010 and summarized below.

The Committee for Related Party Transactions met once in 2012 on 13 November. All members were in attendance.

More in detail, the Committee for Related Party Transactions:

- a) will issue a non-binding opinion regarding the company's interest in completing a less material transaction, its fairness and correctness;
- b) in the case of material transactions, is involved – by way of one or more of its specifically appointed members – in the transaction's preliminary phases and negotiations in accordance with the Procedures. Once the preliminary phases are completed, the Committee will express a binding opinion regarding whether or not the transaction is in the Company's best interest and if the terms and conditions are fair and substantively correct.

The Committee for Related Party Transactions with regard to

- less material transactions, will issue a non-binding opinion regarding the company's interest in completing the transaction, its fairness and procedural correctness;
- material transactions, without prejudice to the transactions subject to a Board of Directors' resolution, will issue a binding opinion. Furthermore, the Committee for Related Party Transactions, or who on its behalf, will be involved in the preliminary phases (by receiving the

information distributed) and the negotiations and is entitled to request information and share comments with the parties involved in the negotiations of this type of transaction. Once the preliminary phases are terminated, the Committee for Related Party Transactions must issue, in a timely manner, a favorable, binding opinion attesting to the fact that the transaction is in the best interest of the Company and that the terms and conditions are fair and substantively correct. In order to formulate its opinion, if deemed necessary and opportune, the Committee for Related Party Transactions may avail itself of one or more independent experts of its choosing. The experts chosen by the Committee must be recognized professionals, experts in the subject matter involved and proven to be without any conflict of interest with regard to the transaction. In the event the Committee is not in favour of the transaction, and if so provided in the bylaws, the Board may, at any rate, proceed with the transaction as long as it is approved by the shareholders. In this instance and whenever the Board of Directors intends to submit a material transaction to the shareholders for approval despite the negative opinion issued by the Committee for Related Party Transactions, the transaction may not be completed in the event a majority of non-related shareholders vote against the transaction, as long as said shareholders represent at least 10% of the share capital with voting rights.

The procedure described above can be found on the Company's website <http://www.gruppoigd.it/Governance>

3.12 APPOINTMENT OF THE STATUTORY AUDITORS

Pursuant to Art. 26.2 of the Bylaws, members of the Board of Statutory Auditors are elected on the basis of preference lists that must be filed at the registered office along with declarations in which each candidate states that he/she is not in violation of the limits for multiple assignments provided for under the law, as well as detailed information about each candidate's personal and professional background, at least twenty days in advance of the shareholders' meeting called for this purpose. The lists may be submitted by the shareholders or groups of shareholders holding the interest specified in Consob regulations (for 2013 equal to 2.5% of the Company's share capital).

The composition of the current Board of Statutory Auditors complies with the current law relating to gender equality insofar as the Company already amended its bylaws to reflect the provisions of Law 120/2011 during the Annual General Meeting held on 19 April 2012.

Pursuant to Art. 26.9, the standing and alternate auditors are appointed and substituted in such a way as to guarantee that the composition of the Board of Statutory Auditors complies with the current law relating to gender equality.

It should also be reiterated in this section of the Report that the provisions relating to the composition of the administrative and control bodies, contained in the above mentioned Law 120/2011, include a specific temporary norm calling for the gradual application of the law and that for the first mandate at least one fifth of the directors and statutory auditors should be of the least represented gender. During the Annual General Meeting held on 19 April 2012 the shareholders granted the Board of Directors the power, pursuant to Art. 2365, paragraph two, of the Italian Civil Code to make the additional changes to the bylaws in light of the criteria used to guarantee equal gender opportunities during the voting process, to substitute members who leave office before the end of their term, as well as the additional bylaw amendments needed to comply with the laws relating to gender equality.

On 28 February 2013 the Board of Directors resolved to ask the shareholders, meeting in extraordinary session on 18 April 2013, in first call, and 19 April 2013, in second call, to approve other amendments to the bylaws in order to introduce a mechanism to ensure compliance with the current laws relating to gender equality in the election of the Board of Statutory Auditors, as well as increase the number alternate statutory auditors from two to three in order to comply with the law.

According to Art. 26 of the bylaws, the following procedure applies to the appointment of the Board of Statutory Auditors:

- from the list obtaining the highest number of votes, two standing auditors and one alternate auditor will be taken in the order in which they appear on the list;
- the third standing auditor and the second alternate auditor are drawn from the list with the second highest number of votes, in the order in which they appear.

In the event of a tie between lists, a new ballot is held between these lists on which all shareholders present at the meeting shall vote. The candidates on the list winning a simple majority of votes are elected.

The first candidate on the minority list with the second highest number of votes will be appointed Chairman of the Board of Statutory Auditors.

Candidates for statutory auditor must meet the requirements set by law. For the purposes of judging the qualifications of those with at least three years' experience in:

(a) professional activities or as confirmed university professors in law, economics, finance or technical-scientific subjects closely related to the Company's business;

(b) management roles at public bodies or public administrations in sectors closely related to the Company's business, the following rules apply:

- all subjects per letter a) above that are associated with the real estate business or other sectors pertaining to real estate are considered to be closely related to the Company's business;
- sectors pertaining to real estate are those in which the parent companies operate, or those that may be controlled by or associated with companies operating in the real estate business.

Those whose situations are incompatible with the title and/or who do not satisfy the requirements of integrity and qualification established by law, and those who are standing auditors at more than five companies listed on official Italian markets, may not be elected as statutory auditors and, if elected, lose office. Positions held at parent companies, subsidiaries, or affiliates do not apply.

With regard to the Chairman of the Board of Statutory Auditors, pursuant to Art. 148, par. 2 bis, TUF, as amended by the Uniform Savings Act, the former was appointed by the Shareholders' Meeting from the minority list of candidates, in accordance with Articles 26.4 and 26.5 of the bylaws and the current norms and regulations based on which the first candidate on the minority list with the second highest number of votes will be appointed Chairman of the Board of Statutory Auditors.

Lgs. 27/2010**"), in implementation of EC directive 2007/36/EC relating to shareholders' rights, in order to facilitate attendance of listed companies' Shareholders' Meetings. This Decree was recently amended pursuant to Legislative Decree n. 91 of 18 June 2012. Partial integration of D. Lgs. 27/2010 in the Company's bylaws was approved by the Board of Directors on 13 December 2010, pursuant to Art. 2365, para. 2, of the Italian Civil Code and Art. 22.1(ii) of the bylaws.

Under Art. 125-bis TUF the notice of call must be published at least 30 days prior to the day in which the Shareholders' Meeting is to be held. The timeframe is different when the Shareholders' Meetings are called to (i) appoint members of the corporate bodies (i.e. 40 days prior to the day in which the Shareholders' Meeting is to be held); (ii) resolve on takeover bids (i.e. 15 days prior to the day in which the Shareholders' Meeting is to be held); and (iii) resolve on reducing share capital and appoint a liquidator (i.e. 21 days prior to the day in which the Shareholders' Meeting is to be held).

Pursuant to Art. 13 of the bylaws, those in possession of voting rights may be represented via a written proxy submitted in accordance with the law. The proxy may also be submitted by accessing a specific section on the Company's website, as well as via certified e-mail submitted in accordance with the modalities indicated in the notice of call.

Furthermore, pursuant to Art. 13.3 of the bylaws, as amended by shareholders on 20 April 2011, in the notice of call the Company may appoint a designated representative for each Shareholders' Meeting to which the proxies with voting instructions relative to all or some of the items on the agenda may be granted, in accordance with the law.

Under the new regulations, shareholders may submit questions relating to the items on the agenda prior to the Shareholders' Meeting. These questions will be answered, at the latest, during the meeting itself (Art. 127-ter TUF). Questions for which answers are provided in the Q&A section of the Company's website need not be answered.

The current Regulations for Shareholder Meetings are designed to guarantee that the Shareholders' Meetings are conducted in an orderly fashion and in full respect of the rights of each shareholder to request clarifications in relation to certain issues being discussed, to express opinions and submit proposals.
